Message from the President.

Since the last issue of the Newsletter we have had CAPEX 96 and Istanbul 96, and it has been a pleasure to meet many old friends at both exhibitions. The 64th FIP Congress was held at the end of ISTANBUL 96 and a copy of my presentation on behalf of the Commission is circulated with this Newsletter.

We are now looking forward to PACIFIC 97 where Ray Todd and I will be presenting a Seminar on Saturday 7th June commencing at 1:00pm. All will be welcome and I would appreciate receiving advance notice of any member of the Commission and/or exhibitors/collectors who are likely to attend so that sufficient copies of the accompanying documentation may be prepared.

As you will see from the results of the election to the Commission Bureau Steve Schumann joins us and we look forward to his active participation in Commission affairs. At the same time we are losing Boudewijn Hellebrekers and I should like to express my warm appreciation on behalf of all commission members for the work he has carried out during his time as Bureau member.

Finally although somewhat late in the day I should like to wish everyone a healthy and happy 1997.

Alan Huggins

The Secretary's page.

Dear Commission members !

First of all warm greetings to all of You. It was a pleasure to meet so many of You during the Istanbul 96 exhibition, and at the Commission meeting.

Once again a Newsletter is "on the street". Last year it was my intention to publish two numbers, but as mentioned at the Commission meeting in Istanbul, has it been very difficult to get enough information for two numbers.

For 1997 also two numbers are planned. To realize this I once again have to ask for your cooperation, - that You will contribute to the next issue. Please make it a habit to send me information of exhibition results from National- and Regional exhibitions, literature reviews, information of unusual auction results, and of the national activities to promote the collecting of postal stationery i.e..

All contributions in English, French, German, Spanish and the Scandinavian languages are welcome. Other languages will not be practical, as the Bureau has no translators. Send YOUR contribution to the next Newsletter already to-day to:

Raymond Todd from Australia writes:

I have often wondered how a one country postal stationery exhibit comprised entirely of used items to rare and exotic destinations would fare in an International exhibition. This query was raised again in the FIP Postal Stationery Commission meeting in Istanbul not as a means of questioning our laid down rules but as a means of bridging the gap between Postal History and Postal Stationery.

Under our present judging rules such an exhibit would suffer because of the treatment deficiency. This is appropriate however there must be room for a collector to show his initiative and acquisition skills.

Of course the choice to exhibit such a collection rests with the exhibitor but how can we reward him when he turns to this style of exhibiting ?

30th May 1996

REPORT TO CONGRESS (ISTANBUL 96).

Mr President Members of the Board of FIP, Congress Delegates.

It is a great pleasure and privilege to address you once again at the 64th FIP Congress on behalf of the the postal stationery Commission. I should like to add a few points to the report printed in the Agenda paper.

The activities of the Commission are now primarily concerned with promoting even greater interest in the collecting and exhibiting of postal stationery. This branch of philately has come a long way in the past decade and the strength of this development was clearly demonstrated at FINLANDIA 95 where the largest ever assembly of postal stationery exhibits were on view.

At the Commission meeting here in Istanbul on the 5th October we have a further programme of seminars and presentations beginning with Pacific 97 and continuing up to Australia 99.

The ballot for Bureau membership was supervised by vice President Patrick Pearson and the following were

Erik Hvidberg Hansen	Denmark
Cesar Jones	Uruguay
Salih Kuyas	Turkey
Hans-Georg Meissner	Germany
Stephen Schumann	USA
Raymond Todd	Australia

At the subsequent meeting of the new Bureau Salih Kuyas was re-elected Vice-President of the Commission.

Besides matters connected specifically with postal stationery the Commission discussed two other areas of more general concern. These were item 7B of the FIP Long Tern Programme and the motion of the Finnish Philatelic Federation regarding the creation of a seperate Commission for Revenues.

The relation to the first point I have been asked by the Commission to endorse the views presented to the FIP Board at the meeting of Commission Presidents and urge the Board to approach this matter with great care to ensure the positive link between the Commissioners and collectors via the federation membership of Commissioners is preserved.

With respect to the Finnish motion. The Commission accepts that the areas of interest to collectors are continually evolving and that this is clearly shown by the increasing level of activity in the Renenue field. The Commission sees no particular problem in recognising this development.

Finally I would like to thank the Bureau and the members of the Commission for their continued support and the Congress and FIP every success in its work. - Thank you for your kind attention.

Alan Huggins/Commission President
