

1900 50 Cents Envelope

50 cents envelope with added 24 cents postage originally open out and pasted onto a larger package sent registered from Granada (April 4, 1902) transit New Orleans, New York to Paris, France

The total postage on the package weighing 122 grams should be 145 cents (9x15 cents rate=135 cents plus 10 cents registration). The necessary additional postage (71 cents) would probably have been affixed on the removed portion of the wrapping.
 The 50 cents envelope used is extremely scarce.
